Enfinity awards turnkey PV solar parks contract to Martifier Solar

Private equity fund Enfinity has awarded a contract to construct five photovoltaic solar parks in various Spanish locations to Martifier Solar, a subsidiary of the Martifier Group. With construction of the parks beginning in December this year, the five parks are expected to be completed in summer 2008.

Martifier Solar signed the contract, worth €51.6 million, and assumes responsibility for all project development and equipment supply for the project. The five parks are to be installed in Ciudad Real, Albacete, Guadalajara and Seville, boasting a capacity of 8MW in total for the entire project.
